

Vinayaka Mission's Students Participate in Global Immersion Program at MAHSA University, Malaysia

Vinayaka Mission's Research Foundation (Deemed to be University), through Vinayaka Mission's Sankarachariyar Dental College, successfully facilitated a two-week Global Immersion Program at MAHSA University, Malaysia, from 13th April 2026 to 26th April 2026.

A total of 9 students and 2 faculty members participated in the program, representing the institution in this international academic engagement.

The program was designed to provide students with global exposure, hands-on clinical insights, and an understanding of international academic practices in the field of dentistry.

During the program, students actively engaged in a comprehensive academic schedule that included:

- Interactive lectures and case-based learning sessions
- Hands-on clinical demonstrations in areas such as Endodontics, Laser Dentistry, and Conscious Sedation
- Exposure to advanced technologies, including CBCT applications and intraoral scanners
- Clinical observation sessions across multiple departments
- Workshops on research methodology and statistics
- Team-building activities and intercultural learning experiences

The program also included a campus tour, city exploration, and opportunities for informal learning and peer interaction, enabling students to gain a holistic international experience.

This initiative reflects Vinayaka Mission's strong commitment to internationalisation, academic excellence, and preparing students to thrive in a global healthcare environment.

The students benefited immensely by gaining practical knowledge, enhancing clinical skills, and developing a broader global perspective in dental education.

Vinayaka Mission's continues to strengthen its global footprint through such impactful international collaborations and student mobility initiatives.
